

# Invitation

## Meeting of the *Intercultural Friendship Group*

The lecture and the following discussion will be held in English via Zoom  
(Der Vortrag und die anschließende Diskussion finden in Englisch über Zoom statt)

## THEME

### ABA CROSS - Carry love

A presentation about the  
Namibian social Start Up ABA CROSS.

Speaker:

Janina Fürup / ABA CROSS

ABA CROSS is designed by Janina Fürup, a physiotherapist from Germany who specializes in babies and toddlers. She has supported local NGOs for children with disabilities in Namibia since 2015. Witnessing the struggles faced by families in transporting the non-walking children to the therapy sessions led her to the idea of her social Start Up ABA CROSS.

ABA CROSS is a therapeutic carrying system for babies and toddlers, but also for bigger and heavier children

with disabilities. It supports the caregiver's back, shoulder and posture, and allows therapeutical adjustments according to the size and the need of the child.

The unique innovation supports families with children with special needs when they don't have wheelchairs or any other equipment or they can't use them due to inefficiency to the infrastructure and the public transport system.

The event takes place:

Wednesday, January 11, 2023  
Beginning 19:00 o'clock

Mahatma-Gandhi-House, side wing  
Theodor-Heuss-Str. 11
